

Different LTM Systems

What types of LTM are involved in the following examples?

1. Max performs a trick on his skateboard. He can also remember the first time he performed the trick successfully.
2. Helen can recite the alphabet but she can't remember learning how.
3. Jenna knows that Paris is the capital of France and that France is a republic.
4. Kam can throw M&Ms in the air and catch them in her mouth, but she knows she shouldn't do it at the dinner table because last time her mum told her off for it.
